

Community Agency Partner Impact 2020 Spring Edition

The Greater Vancouver Food Bank would like to thank all our Agencies for their partnership and commitment to providing food to the Greater Vancouver community. We are especially grateful to continue supporting your services during the COVID-19 pandemic, either through alternative programming or taking a break to ensure safe practices are a priority. We would like to share the results from our first Annual Survey of 2020. We hope that this impact report demonstrates the amazing work our partners do and the trends from our services.

January 2020 Survey

Our network of approximately 80 Community Agency Partners were asked to complete a short survey rating their experience with different areas of our services. The following information captures those results.

A Word from our Agencies

Burnaby Neighbourhood House

"I always look forward to the "shopping" opportunity when I come to the the Food Bank. The selection in the fridge is amazing, and has really allowed up to serve much more produce and dairy(than our budget allows us to buy.) As my program cooks enough to allow for families to take home portions, the bulk shelf is really helpful."

The KidSafe Project Society

"We are truly grateful for GVFB services, it makes a crucial difference in the operation of KidSafe's Food Security Program. With weekly pick ups, we are able to distribute larger quantities of food for our families that are in great need of support, we provide more food for children in our programs. GVFB's services have been excellent and we appreciate the flexibility and support that have been provided to us."
