

Greater Vancouver Food Bank

Food Donation Referral List

December 2025

While our organization does not accept food donations directly from the public, we encourage you to support the local groups listed below who do. Please note the following when donating food:

- **Do not drop off items unattended**, items must be received by a staff or volunteer onsite.
- **Donate only non-perishable items**, unless otherwise stated in the "Notes" section.
- **Do not donate expired or heavily dented items**. Products past best-before (BB) dates are acceptable, but expired products are not.
- **Refer to each listing for drop-off times**.
- **Calling ahead is always a good idea**, though only required where stated.
- **Agencies have a right to refuse donations** if they do not meet their standard.

Thank you for helping fight food insecurity in our community!
